

# PURE, THE WAY MOTHER NATURE INTENDED IT TO BE...

**W**e pride ourselves on the continual growth of our High Purity Process Piping Division. Our highly skilled and trained industry professionals consistently meet and exceed our clients demanding specifications in both techniques and quality. We have in-house quality control technicians who uphold the highest standards while serving our extensive semiconductor client base.

We're proud to have been selected to design and build high purity process piping systems for numerous semiconductor companies, both large and small, throughout the Bay Area. ASI's Process Piping Division is committed to TOTAL customer satisfaction. For over 25 years, we have helped build the Bay Area...one relationship at a time.
